Hansa Medical Groupe

Dear patient and/or family,

Hansa Medical Groupe offers the Chronic Care Management(CCM), Remote Patient Monitoring(RPM), and Principal Care Management(PCM) program for our Medicare patients. Signing the consent on page 3 will allow us to provide these services when appropriate and contact the patient or Power of Attorney on a monthly basis, to check in, coordinate care, and see how things are going regarding their health and wellness.

These additional services of communicating, specialty focus, and monitoring patients will help with continuity of care, prevent hospitalizations or ER visits, and allow families another way to communicate their concerns. It helps everyone involved work better together as a team, for the betterment of the patient.

I look forward to working even closer with our patients and their families. The CCM program will allow us to do this even better.

Sincerely
